Record Snowfall brings Pot Holes

The month of January brought record amounts of snow to the northeast and with it came an abundance of abuse on parking lots. Pot holes have formed and will continue to get worse during these next couple of months. Capitol Sweeping Services can help you with these pot holes! There is no need to wait until spring and allow them to grow. We offer **Infrared Asphalt Repairs**: a permanent pot hole solution that creates seamless repairs. Infrared Asphalt Repairs can fix pot holes, large cracks in asphalt and damaged asphalt around catch basin tops.

Does your parking lot look like this? Capitol Sweeping Services can repair this for you!

Should a parking lot have too much snow, ice or water in it, we are not always able to perform Infrared Asphalt Repairs. If that is the case, we are able to fill your pot holes with **hot patch**-immediately! While this is a temporary repair, it will address any pot hole concerns you have very quickly.

Visit www.capitolsweeping.com to learn more!

Call Capitol Sweeping Services today to repair your pot holes at (860) 289-7555!
